Overall Prize

Winner:

Harper McBride (Aged 13)

St. Pauls RC Academy

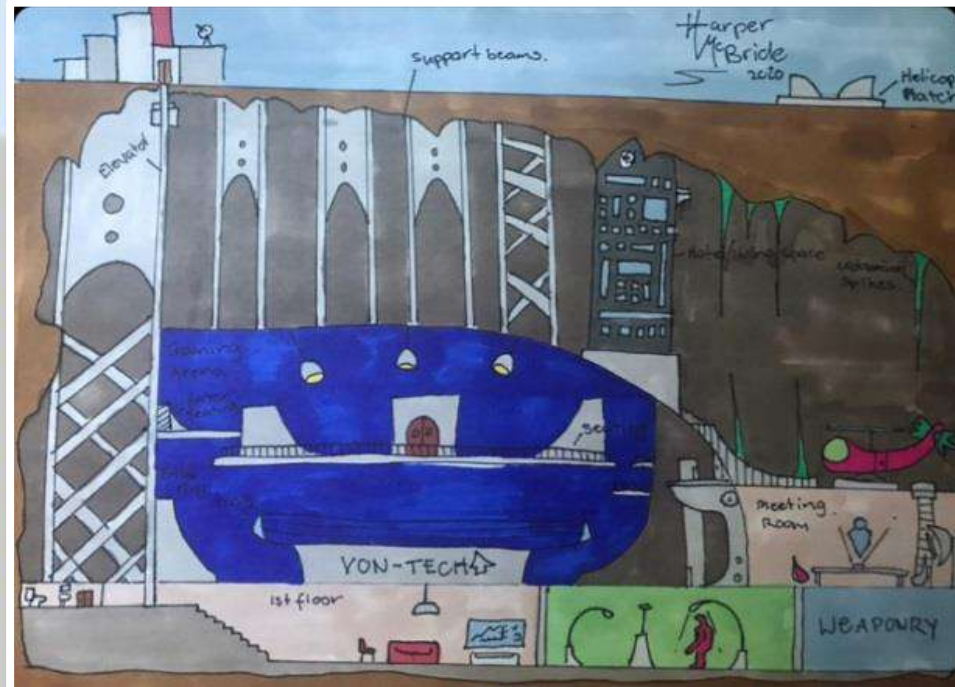

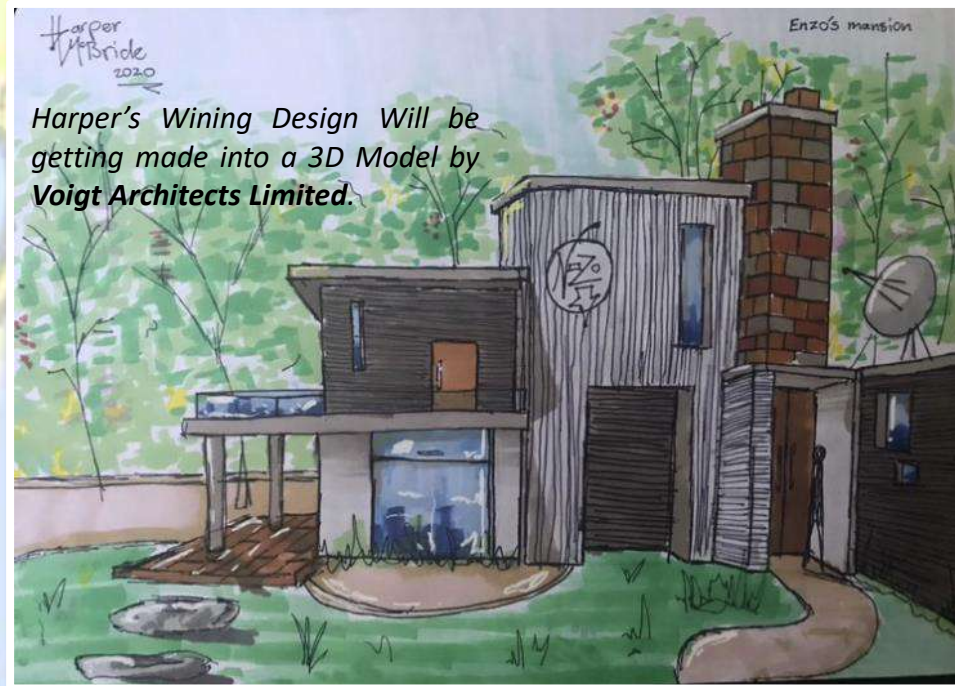

'Enzo Liam's House & Underground Lair'

House Description:

- I decided to design a hideout for my own superhero (Enzo Liam's).
- From the outside Enzo's house looks like a normal house. This is to disguise what lies underneath.
- When you enter his house, you are met by an elevator that takes you down to the underground lair called the Charging Station.
- This is the place the Mech's train, live and plan how they are going to ensure the safety of the citizens from evil anti-heroes

Judge's Comments:

"The sheer creativity and depth of the house design, combined by the beautiful hand drawings made this entry stand out as a worthy overall winner. The judges loved the inventive 'back story' and creation of a new Superhero and House."
